Dear Noa,

Mazel Tov on your recent Bas Mitzvah! Thank you very much for the mp3 players which you loaded and wrapped so beautifully.

By "including" Kids of Courage in your simcha, you opened your heart to a very special group of children and young adults who live with incredible medical challenges every day. The gifts that you sent will enable these kids to feel very special. We will distribute them on our upcoming Summer Adventure to Los Angeles next month. Imagine the smiles on the children's faces and feel proud that you played a part in it.

Thank you again and have a wonderful summer.

Sincerely,

Dr. Stuart Ditchek
